

REJWANA TABASSUM

Computer Science Graduate

Chattogram, Bangladesh | 01877186487 | rejwanatabassum87871@gmail.com

LinkedIn: [linkedin.com/in/rejwana-tabassum-22480a250](https://www.linkedin.com/in/rejwana-tabassum-22480a250) | GitHub: github.com/Rejwana7

PROFILE SUMMARY

Computer Science graduate with hands-on, project-based experience across the full quality assurance lifecycle: manual test design, API test automation (Postman/Newman, Mocha, Chai, Axios), and bug reporting, with working knowledge of Jira for issue tracking. Combined with practical backend development experience building projects in Node.js, MySQL, and Sequelize ORM, and frontend development experience with React, Next.js, and Tailwind CSS. Comfortable on both sides of the SDLC, writing test cases and automated test suites as well as designing and building applications end to end. Quick to learn new tools and domains, detail-oriented.

EDUCATION

BSc in Computer Science, Port City International University, Chattogram CGPA: 3.78	2025
Higher Secondary (Science), Enayet Bazar Mohila College GPA: 4.75	2020
Secondary (Science), City Govt Girls' High School GPA: 4.91	2017

CORE SKILLS

QA & Testing

- Manual Testing: test case design, acceptance criteria, positive/negative and boundary testing, bug reporting
- API Testing: Postman, Newman, Mocha, Chai, Axios.
- Testing Types: smoke, sanity, regression, functional, and role-based access control (RBAC) testing
- Bug/Issue Tracking: working knowledge of Jira

Development

- Languages: JavaScript, TypeScript, Python, C++, SQL
- Frontend: React, Next.js, Tailwind CSS, HTML, CSS, Bootstrap
- Backend: Node.js, Sequelize ORM, REST APIs, MySQL
- Other: Django, Git & GitHub, Microsoft Office

Soft Skills

- Communication, teamwork, adaptability, analytical problem-solving

PROJECTS

dMoney API Testing - Postman & Newman

- API test coverage for a mobile financial service system (Admin, System, Agent, Customer, Merchant modules).
- Built a complete Postman collection with token chaining, run via Newman CLI; diagnosed and fixed recurring test-run failures (token expiry, stale variables, duplicate-transaction HTTP 208) and published Postman API documentation with a full Excel test-case sheet
- GitHub: github.com/Rejwana7/Dmoney-API-testing-use-Postman

dMoney API Testing - Mocha, Chai & Axios

- JavaScript integration test suite covering the same dMoney API modules, built with Mocha, Chai, and Axios.
- Designed reusable helper functions (scenario(), describeOtpLogin(), describeCreateAndActivate()) to simplify and structure test cases

- GitHub: github.com/Rejwana7/Demony-Api-testing-using-mocha-chai

dMoney Manual Testing

- Manual QA assignment covering dMoney and EasyPay modules.
- Authored test case spreadsheets, acceptance criteria documents, and a bug report guide based on functional specifications
- GitHub: github.com/Rejwana7/Dmoney-Manual-Testing

Blog Management API

- REST API for a blog management platform with Admin, User, and Guest access levels, built with Node.js, Express, MySQL, and Sequelize ORM.
- Implemented JWT-based authentication and role-based authorization (RBAC), full blog CRUD with ownership rules, and public blog search/filter by category
- Built a complete Postman collection covering all endpoints across Admin, User, and Guest flows, with published API documentation
- GitHub: github.com/Rejwana7/Blog-Management-API-Create

Blood Donation Platform

- Web application to connect blood donors and recipients, built using Django.
- GitHub: github.com/Rejwana7/Blood_donation

CERTIFICATIONS

- **CSE Fundamentals with Phitron** — 2024 (From Phitron)
- **2023 ICPC Asia Dhaka Regional Site Online Preliminary Contest** — 2023 (From ICPC)
- **Project-Based Excel** — 2026 (From Grameenphone Academy — Certificate of Excellence)
- **Full Stack SQA and Software Test Automation** — 2026 (From Road to SDET Online Academy)
